

CTI PRODUCT EVALUATION PACKAGE

BUSINESS WORKFLOW

Knowledge, experience and
ambition for practical solutions

You would like...

... to teach basic knowledge in SAP® Business Workflow to all decision makers and project participants?
However, standard training is too general for you?

... to find out whether the workflow usage you would like are realisable and affordable?

... a functioning workflow prototype tailored to your requirements, which makes the benefits of this technology transparent to your company?

... and all this compactly,
completely, quickly and
results-orientated?

The CTI Business Workflow Evaluation Package

Three full days' training, workshop, prototype modelling and presentation.

Agenda

Day I

Kick Off

Determination of the program and definition of the goals
Participants: Management committee, selected project employees

Overview Training

Teach basic SAP® Business Workflow knowledge
Participants: Project employees

Day II

Workshop

Drawing up, evaluation and costing of potential areas where SAP® Business Workflow could be used.
Participants: Selected project employees

Day III

Prototype modelling

Preparation of a functioning workflow prototype
Participants: Selected project employees

Presentation / Discussion

Presentation of the exemplary solution and discussion of the requirements determined as well as their evaluation
Participants: Management committee, selected project employees

SAP® und SAP® Business Workflow are registered trade names of SAP AG. All other trade names are registered brands of the respective manufacturers.
